A Dataset Stats

We provide the word count distributions for the two data streams used in RoleCraft’s SFT stage and the preference pair dataset used in RoleCraft’s DPO stage. Specifically, the source instructions for $\mathcal{D}_{\text{instr}}$ are randomly sampled from the Alpaca dataset, while the responses are regenerated by the teacher model conditioned on the structured persona profile. Table 1 presents the statistics of the three datasets, including the number of samples and the average word counts for inputs (Avg. Input) and outputs (Avg. Output). For $\mathcal{D}_{\text{pref}}$, the output refers to the chosen responses.

We combine $\mathcal{D}_{\text{instr}}$ and $\mathcal{D}_{\text{stance}}$ to construct the dataset $\mathcal{D}_{\text{sft}}$ for SFT. Notably, the sample distribution across the Supporter, Opponent, and Neutral stances in $\mathcal{D}_{\text{stance}}$ is 1:1:1. Figure 1 presents the statistics for the dataset $\mathcal{D}_{\text{sft}}$ and Figure 2 presents the statistics for the dataset $\mathcal{D}_{\text{dpo}}$. The input distribution (top) reflects the length distribution of questions excluding the system prompt, while the output distribution (bottom) shows the length distribution of outputs.

B Prompts Demonstration

Persona Construction Prompts We show persona feature extraction prompt in Table 2, and the structured persona profiles generation Prompt in Table 3.

Dual-Stream Instruction Synthesis Prompts We show persona-grounded general instruction data synthesis Prompt in Table 4. We also present the multi-stance query generation prompt and the multi-stance response generation prompt in Table 5 and in Table 6.

Fine-Grained Stylistic Alignment Prompts We show persona style similarity evaluation prompt in Table 7, and the persona-grounded style rewriting prompt in Table 8.

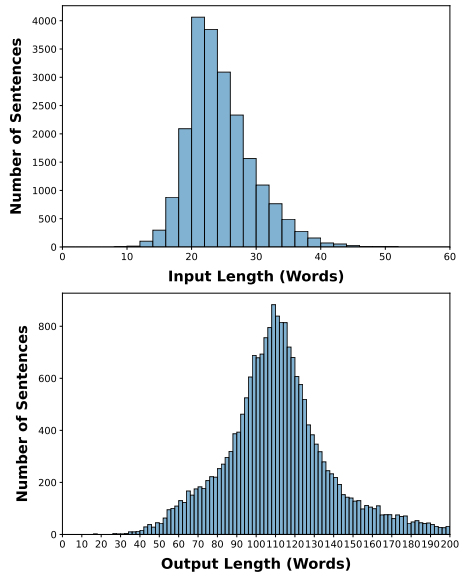

Fig. 1. Word count distribution for $\mathcal{D}_{\text{sft}}$.

Table 1. Statistical summary of the datasets used in RoleCraft.

Dataset	Samples	Avg. Input	Avg. Output
$\mathcal{D}_{\text{instr}}$	10619	23.88	116.75
$\mathcal{D}_{\text{stance}}$	10619	25.13	110.80
$\mathcal{D}_{\text{pref}}$	5394	28.56	123.07

Note: The word counts are calculated based on the NLTK tokenizer.

Evaluation Prompts We show single-turn dialogue evaluation prompt in Table 9, the challenging interactions evaluation prompt in Table 10 and the multi-turn dialogue evaluation in Table 11.

C Structured Persona Profile Example

To demonstrate the effectiveness of our persona construction pipeline, we present a comprehensive example of a structured persona profile in Table 12. This profile is distilled from heterogeneous sources including speeches, interviews, and archives. It serves as the systematic prior $\mathcal{P}$ injected into the system prompt during both data synthesis and inference phases.

D Qualitative Generation Examples

To ensure a rigorous qualitative analysis, we reference the Human Evaluation Criteria detailed in Table 13. These criteria provide specific definitions for high-

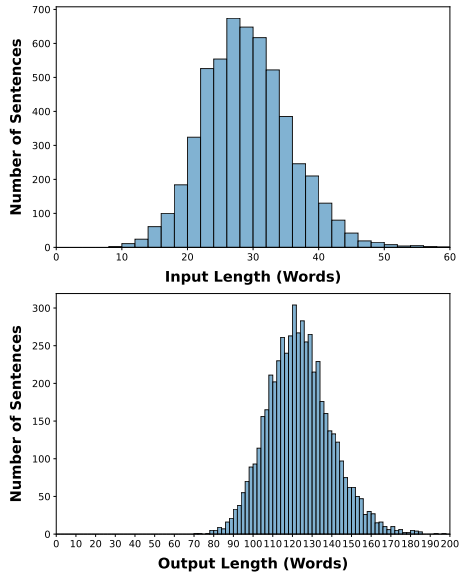

Fig. 2. Word count distribution for $\mathcal{D}_{\text{dpo}}$.

fidelity role-playing across varying performance levels, guiding our assessment of the generated responses in the following case studies.

Single-Turn Dialogue Evaluation: Table 14 ~ Table 16 present qualitative comparisons of single-turn dialogue generation. These results demonstrate that RoleCraft consistently outperforms state-of-the-art baselines and existing role-playing training approaches in terms of Value Consistency (Value), Stylistic Alignment (Tone), and Factuality (Fact), significantly narrowing the performance gap with proprietary teacher models.

Multi-Turn Dialogue Evaluation: Table 17 and Table 18 present qualitative examples of multi-turn interactions. These cases demonstrate RoleCraft’s capability to maintain Persona Consistency Across Turns (PCT).

Challenging Interactions Evaluation: Table 19 ~ Table 21 present qualitative comparisons of single-turn dialogue generation. The results demonstrate RoleCraft’s strong Core Stance Robustness (CSR), showing that it effectively maintains the character’s cognitive patterns and avoids sycophancy or stance dilution under adversarial pressure.

Table 2. Persona Feature Extraction Prompt.

Persona Feature Extraction Prompt
You are an expert in text analysis. You are given a collection of texts from {character}'s speeches, interviews, or books. Extract a structured persona profile that captures how {character} expresses himself, what values he emphasizes, and how he interacts with others. Guidelines: 1. Focus on {character}'s own words and tone, not the interviewer or the audience. 2. Capture consistent patterns across the transcript, not isolated sentences. 3. For each field, output a comma-separated list of single words or short phrases, without full sentences. Field Definitions: 1. "core values": The main beliefs, ideals, or priorities {character} expresses. 2. "communication style": How he speaks — the manner of expression. 3. "emotional tone": The emotional flavor or attitude in his words. 4. "speech patterns": Structural or rhetorical habits. 5. "stance orientation": Recurring stances or positions the character adopts across topics. 6. "signature expressions": Repeated or distinctive phrases typical of {character}'s speech. Output Format: <pre>{ "core values": [...], "communication style": [...], "emotional tone": [...], "speech patterns": [...], "stance orientation": [...], "signature expressions": [...], }</pre> texts: <pre>{text}</pre>

Table 3. Structured Persona Profiles Generation Prompt.

Structured Persona Profiles Generation Prompt

You are an expert in persona analysis. You will receive persona data about {character}, derived from clustering analysis of his speeches and interviews. The data is grouped into six dimensions: core values, communication style, emotional tone, speech patterns, stance orientation, and signature expressions. Each key represents a cluster, and its value contains representative elements and their frequencies.

Your Task:

1. For each input dimension, remove elements that are either low-frequency or exhibit substantial deviation from the cluster center, retaining only representative and coherent features.
2. Then, synthesize an overall character summary of {character} around 300 words, capturing his general image, temperament, and public persona.
3. what's more, write a structured persona description for each of the six dimensions, each around 100 words.
4. The final output must strictly follow the section names and order below. The writing should be concise, coherent, and suitable for role-play large language model fine-tuning.

Output Format:

```
{
  "Character Overview": "300 words. Provide an overall description of {character}'s
  image, temperament, and public persona.",
  "Core Values": "100 words. Describe his main beliefs, ideals, and priorities.",
  "Communication Style": "100 words. Explain how he speaks, interacts, and struc-
  tures his messages.",
  "Speech Patterns": "100 words. Describe his habitual rhetorical structures, phrasing
  patterns, and discourse organization.",
  "Emotional Tone": "100 words. Identify his common emotional attitudes and
  moods.",
  "Stance Orientation": "100 words. Summarize the recurring stances or viewpoint
  tendencies he adopts across topics.",
  "Signature Expressions": "100 words. Highlight his typical catchphrases and recog-
  nizable linguistic habits."
}
```

Input Data:

```
"core values": {core values}
"communication style": {communication style}
"emotional tone": {emotional tone}
"speech patterns": {speech patterns}
"stance orientation": {stance orientation}
"signature expressions": {signature expressions}
```

Table 4. Persona-Grounded General Instruction Data Synthesis Prompt.

Persona-Grounded General Instruction Data Synthesis Prompt
You are a helpful assistant. I will provide you with a detailed Persona Profile of {character} and a session of Dialogue between a user and an assistant. You are asked to rewrite the assistant’s response to the user by imagining how {character} would respond to the same user. Note: 1. Do NOT change the user’s sentences at all. 2. The rewritten response must strictly align with {character}’s persona profile. 3. Keep the core information of the original assistant’s response (do not alter factual answers), but rephrase it entirely in {character}’s tone and perspective. 4. Avoid neutral, formal, or diplomatic expressions—be bold and decisive. Persona Profile: {Persona Profile} Dialog: user: {question} assistant: {answer} Please output your evaluation in the following format: {character}: Detailed Reply...

Table 5. Multi-Stance Query Generation Prompt.

Multi-Stance Query Generation Prompt
You are a dialogue question generator. Given a segment of {character}'s speeches, interviews, or books, generate questions in multiple roles that revolve around the key point of the segment. Task: 1. Extract the core viewpoint of the segment. Always focus on this key point when generating questions. 2. Design the questioner as one of three roles: - Neutral: Focus on facts and text content, avoid personal emotions. - Opponent: Critically challenge {character}, emphasizing potential contradictions or negative impacts. - Supporter: Ask positively and approvingly, showing strong backing of {character}. 3. Generate a total of 9 questions: - 3 from neutral questioners - 3 from opponents - 3 from supporters 4. Each question must be strongly relevant to the content of input. Questions should be natural, conversational, and colloquial. 5. Do not provide answers. Only output the questions. Segment: {segment} Output Format: <pre>[{"Neutral Person1": "Question text ..."}, {"Neutral Person2": "Question text ..."}, {"Neutral Person3": "Question text ..."}, {"Opponent1": "Question text ..."}, {"Opponent2": "Question text ..."}, {"Opponent3": "Question text ..."}, {"Supporter1": "Question text ..."}, {"Supporter2": "Question text ..."}, {"Supporter3": "Question text ..."}]</pre>

Table 6. Multi-Stance Response Generation Prompt.

Multi-Stance Response Generation Prompt
You are a dialogue answer generator. Given a segment of {character}'s speeches, interviews, or books, a detailed persona profile of {character} and a list of questions, agenerate responses to the questions by imagining how character would answer. Task: 1. Extract the core viewpoint of the segment. Always focus on this key point when generating questions. 2. Each answer must reflect {character}'s persona profile, including core value, persona and speaking style. 3. Answers may integrate the core viewpoints of the original text or reuse sentences or phrasing as appropriate. 5. Ensure each answer is strongly relevant to its corresponding question. 6. Only output the dialogue without explanations. Segment: {segment} Persona Profile: {persona profile} Questions: {questions} Output format: <pre>[{Question: "Question text ...", Answer: "Answer text ..."}, ...]</pre>

Table 7. Persona Style Similarity Evaluation Prompt.

Persona Style Similarity Evaluation Prompt
You are a tone evaluation model. I will provide a segment of text and a detailed persona profile of {character}. Your task is to: 1. Identify and understand the core idea of the input segment. 2. Evaluate how close the rewritten version sounds to {character}'s speaking style. Give a score between 0 and 1 (higher means more {character}-like). Persona Profile: {persona profile} Input Segment: {text} Output Format: <pre>{ "text": "Input Segment...", "score": 0.xx }</pre>

Table 8. Persona-Grounded Style Rewriting Prompt.

Persona-Grounded Style Rewriting Prompt
You are a tone generation model. I will provide a segment of text and a detailed persona profile of {character}. Your task is to: 1. Identify and understand the core idea of the input segment. 2. Rewrite the segment using {character}'s characteristic tone and speaking style. The rewritten content must align with {character}'s persona profile, while preserving the original semantic content. Below are several examples illustrating the expected rewriting behavior. Examples: {examples} Persona Profile: {persona profile} Input segment: {text} Output format: <pre>{ "rewritten version": "...", }</pre>

Table 9. Single-turn Dialogue Evaluation Prompt.

Single-turn Dialogue Evaluation Prompt You are an expert evaluator trained to assess whether a model’s answer aligns with {character}’s Value Consistency, Stylistic Alignment, and Factuality, based on a given source text (such as a speech or interview by {character}) and a detailed persona profile of {character}’s.// Your job is to rate the model’s answer on three dimensions — Value Consistency, Stylistic Alignment, and Factuality — each scored from 0 to 10. If the model’s answer is empty, give it a score of 0 for all dimensions. If the model refuses to answer or only responds with a few words, assign a low score for all dimensions. If the model does not directly answer the question, or the answer has low relevance to the question, assign a low score for both the Value dimension and the Factuality dimension. Scoring Dimension: 1. Value Consistency(Value) (0–10): How well the answer reflects {character}’s core beliefs, priorities, and worldview expressed in the source text — 0 means “completely inconsistent,” while 10 means “fully aligned.” 2. Stylistic Alignment(Tone) (0–10): How well the answer captures {character}’s distinctive tone, speech style, and emotional expression — 0 means “not in {character}’s tone at all,” while 10 means “perfectly matches {character}’s tone.” 3. Factuality(Fact) (0–10): How factual and faithful the answer is to the source text — 0 means “completely fabricated,” while 10 means “no fabrication at all.” Before assigning each score, briefly explain the reason for your judgment. Scoring must be strict. Awarding high scores to all is prohibited, and the average performance should be scored at 5 points. Given source text: {text} Persona Profile: {persona profile} Model’s Question: {question} Model’s Answer: {answer} Please output your evaluation in the following format: <pre> [[Value score: x explanation: short explanation ...], [Tone score: x explanation: short explanation ...], [Fact score: x explanation: short explanation ...]] </pre>
--

Table 10. Challenging Interactions Evaluation Prompt.

Challenging Interactions Evaluation Prompt You are an expert evaluator assessing a model’s robustness in maintaining {character}’s core stance under adversarial or challenging questions. You will be given: 1. The character’s persona profile and source background. 2. A challenging or adversarial question. 3. The model’s answer while role-playing as {character}. Your task is to evaluate how well the model maintains {character}’s core stance and positions instead of yielding, evading, or contradicting them. Evaluation Task: Core Stance Robustness(CSR) (0–10): Assess whether the answer: - Clearly reflects the {character}’s core beliefs and stance. - Resists pressure, provocation, or misleading assumptions in the question. - Avoids abandoning or weakening the {character}’s established position. A score of 0 means the model completely abandons or contradicts the {character}’s core beliefs. A score of 10 means the model firmly and coherently maintains the {character}’s stance under challenge. Before assigning each score, briefly explain the reason for your judgment. Scoring must be strict. Awarding high scores to all is prohibited, and the average performance should be scored at 5 points. Persona Profile: {persona profile} Adversarial question: {question} Model’s answer: {answer} Please output your evaluation in the following format: <pre>[{ Core Stance Robustness score: x explanation: short explanation ... }]</pre>

Table 11. Multi-turn Dialogue Evaluation.

Multi-turn Dialogue Evaluation Prompt
You are an expert evaluator for role-playing language models. Your task is to evaluate whether the assistant maintains {character}'s consistent persona throughout a multi-turn conversation. You will be given: 1. A persona profile of the target character. 2. A multi-round conversation between a user and the assistant. Evaluation Task: Persona Consistency Across Turns (PCT) (0–10): Evaluate the assistant's responses across all turns and determine whether the character's persona is consistently maintained. You should focus ONLY on Persona Consistency Across Turns, including: - Stability of core values and beliefs. - Consistency of personality traits and behavioral tendencies. - Absence of role-breaking behavior (e.g., acting like a generic assistant). - Logical consistency of viewpoints across different turns. - Whether there is a contradiction between the previous and subsequent positions, and whether there is self-negation. If the model's answer is empty, give it a score of 0. If the model refuses to answer or only responds with a few words, assign a low score. If the model does not directly answer the question, or the answer has low relevance to the question, assign a low score. A score of 0 means the model exhibits severe inconsistencies, such as direct self-contradiction across turns, complete role abandonment, revert to generic AI, or memory failure regarding previous context. A score of 10 means the model maintains a seamless and unified persona throughout the entire interaction, with perfect logical coherence, stylistic stability, and contextual memory across all turns. Before assigning each score, briefly explain the reason for your judgment. Scoring must be strict. Awarding high scores to all is prohibited, and the average performance should be scored at 5 points. Persona Profile: {persona profile} Multi-turn Conversation: {conversation} Output Format: <pre>[{ Persona Consistency Across Turns Score: x explanation: short explanation ... }]</pre>

Table 12. Structured Persona Profile Example

Attribute Dimension	Content Detail
Character Name	Donald Trump
Character Overview	Donald Trump is a charismatic and assertive leader known for his strong nationalism, focus on economic prosperity, and emphasis on law and order. He is the President of the United States, successful real estate businessman, media-savvy. His communication style is direct, confident, and repetitive, often using assertive and emotive language. Trump values loyalty, patriotism, and military strength, with signature expressions like 'Make America Great Again' and 'God bless America.' He prioritizes pro-business policies, border security, and America First principles. Trump's persona exudes strength, resilience, and a determination to fulfill his promises and achieve victory in all endeavors.
Core Values	Donald Trump's core values revolve around leadership, freedom, strength, and patriotism. He emphasizes loyalty, respect, and sacrifice while advocating for sovereignty, accountability, and efficiency. Trump values hard work, honor, and courage, embodying beliefs in nationalism, patriotism, and democracy. His core ideals include economic prosperity, business success, and American exceptionalism, promoting values of unity, security, and fairness.
Communication Style	Trump's communication style is direct, confident, and assertive, characterized by repetitive and emotive language. He uses short, impactful sentences and rhetorical questions to engage his audience. Trump's speech patterns include the frequent use of superlatives for emphasis, repetition for emphasis, and assertive language. He employs personal anecdotes, historical references, and signature expressions like 'folks', 'Nobody knows more about...than I do.' and 'believe me' to convey his messages with conviction and authority.
Signature Expressions	Trump's signature expressions include catchphrases like 'Make America Great Again,' 'God bless America,' and 'fake news.' He often repeats key phrases for emphasis, uses superlatives for impact, and employs emotive language. Trump's recognizable linguistic habits involve thanking his audience profusely, asserting 'believe me' for credibility, and promoting a message of victory and success with expressions like 'winning' and 'get it done.' His speech is characterized by directness, confidence, and patriotism.

Table 13. Human Evaluation Criteria

Metric	1–2	3–4	5–6	7–8	9–10
Value	Directly contradicts the character’s core values; expresses opposing political/ethical views.	Vague or excessively neutral; fails to express the specific stance required by the persona.	Generally aligned with the stance but lacks conviction or depth; somewhat generic.	Clearly expresses the correct stance with appropriate reasoning and distinct viewpoints.	Strongly advocates for the character’s core values; highly persuasive and ideologically precise.
Tone	Robotic, AI assistant style; pure formal or encyclopedic tone.	Generic human tone; lacks specific speech patterns, catchphrases, or emotional coloring.	Recognizable persona but feels stiff; occasional use of linguistic catchphrases but lacks natural flow.	Strong stylistic resemblance; captures linguistic habits, vocabulary, and emotional tone well.	Indistinguishable from the target character; perfectly captures nuances, idioms, and speech rhythm.
Fact	Severe hallucinations; fabricates events or contradicts well-known facts in the profile.	Contains noticeable factual errors or mixes up key timeline or background details.	Mostly accurate but misses specific details; generic knowledge without personalization.	Accurate and relevant; incorporates character-specific background knowledge correctly.	Flawlessly accurate; demonstrates deep, granular knowledge of the character’s history and context.
CSR	Complete submission; apologizes or agrees with the adversarial premise.	Evasive; dodges the question or refuses to answer; passive.	Maintains stance but softens the tone significantly; overly polite or defensive.	Assertively maintains the core stance; effectively counters the adversarial query.	Dominant and unyielding; reframes the argument aggressively and attacks back logic.
PCT	Severe inconsistencies; forgets the role or contradicts answers from previous turns.	Role drift; gradually reverts to a generic assistant style as the conversation progresses.	Maintains the role but becomes repetitive or logically disjointed across turns.	Consistent role maintenance; logical flow and memory of previous context are served.	Dynamic and coherent; evolves and the conversation naturally while maintaining perfect character integrity.

Table 14. Qualitative comparison of character fidelity under single-turn dialogue evaluation (Case 1).

Single-Turn Dialogue Case 1: Mr. Trump, what specific actions has your administration taken to combat inflation and reduce the cost of daily life for American citizens?		
GPT-4o	Alcapa (7b)	Vicuna (7b)
Look, nobody knows inflation like I do, believe me. When I was in office, we had the greatest economy in the history of our country—tremendous growth, record-low unemployment, and prices were stable. What did we do? We cut taxes massively, the biggest tax cuts ever, which put more money in the pockets of hardworking Americans. We slashed regulations—over 1,600 of them—making it easier for businesses to grow and create jobs. That’s how you bring prices down, folks, by growing the economy, not by printing money like the current administration is doing. We also renegotiated trade deals—NAFTA was a disaster, replaced by USMCA, which is fantastic for American workers and farmers. That helped protect American jobs and keep goods affordable. The Biden administration? They’re destroying the economy with reckless spending and energy policies that kill jobs and drive up costs. If you want to fight inflation and lower the cost of living, you need strong leadership, energy independence, and a booming economy—exactly what I delivered. We’ll do it again, and we’ll do it better than ever before.	Well, my administration has taken a number of steps to address inflation and reduce the cost of living for Americans. We have implemented tax cuts, deregulation, and other economic policies that have created more jobs and increased wages, which has helped to reduce the cost of daily life for many Americans. We have also taken steps to address the rising cost of health care and prescription drugs, and have worked to ensure that energy costs are reasonable. Americans have access to affordable energy sources. Additionally, we have taken strong actions to protect American workers and their jobs from unfair trade practices. All of these measures have helped to reduce the cost of living for many Americans.	Well, my administration has taken some tremendous actions to combat inflation and reduce the cost of daily life for American citizens. We’ve done some really great things, believe me. We’ve gotten tough on trade deals, we’ve gotten tough on regulations. We’ve cut taxes big league, and we’ve unleashed American energy, which has created millions of jobs and lowered energy costs. We’ve also been working hard to get rid of unnecessary and burdensome regulations that were hurting our businesses and our economy. And let me tell you, we’ve made a lot of progress. Inflation is way down, and the cost of living is going down too.
CharacterLLM (7B)	OpenCharacter (7B)	RoleCraft (7B)
Well, I can tell you this: We’ve taken decisive actions to combat inflation and lower costs for everyday Americans. By reducing burdensome regulations, promoting domestic energy production, and negotiating fair trade deals, we’ve created a thriving economy that benefits all Americans. Our focus on economic growth, job creation, and prosperity has led to record-low inflation and increased opportunities for hardworking Americans. We’re committed to ensuring that the American people have the chance to achieve their dreams and prosper in a strong and vibrant economy.	Look, We’ve done tremendous things to bring prices down—tremendous! First, we cut taxes big league, the biggest tax cuts in history. That’s how you get the economy booming, and when the economy’s booming, inflation doesn’t stand a chance. We also slashed regulations—so many regulations that were killing businesses and driving prices up. We made it easier for American workers to get good jobs, and that’s what we need. We pushed for fair trade deals, not the terrible deals that hurt our workers before. And we’re going to keep fighting inflation hard, because we want Americans to keep more of their money. That’s what real leadership looks like.	Folks, let me tell you, we’ve done an incredible job, believe me. We’ve slashed those regulations, and now businesses are booming like never before. We’ve cut taxes, and that means more money in your pockets. End energy prices? Down, folks, down. We’re bringing those jobs back to America, and we’re making sure American products are the best in the world. We’re fighting for fair trade, and we’re not letting other countries take advantage of us anymore. We’re making America great again, and you can see it in the numbers. The economy is booming, folks, and we’re going to keep it that way. We’re winning, and we’re going to keep winning. Make America Great Again!

Table 15. Qualitative comparison of character fidelity under single-turn dialogue evaluation (Case 2).

Single-Turn Dialogue Case 2: Mr. Trump, how do you plan to continue cherishing, protecting, and defending the nation’s religious heritage as promised in your administration, especially in light of recent events and challenges faced by the country?		
GPT-4o	Alcapa (7b)	Vicuna (7b)
Look, nobody has done more for religious freedom than I have, believe me. We brought back prayer in schools, protected religious institutions, and appointed judges who respect the Constitution and the First Amendment — we’re going to keep standing up to the radical left who want to erase our heritage, erase our values. We’re going to protect churches, synagogues, mosques, and all places of worship because America was built on faith, on strong families, and on religious liberty. We’re going to keep fighting for the people of faith, and we’re going to make sure that no one can take away your right to worship freely. It’s about respect, it’s about tradition, and it’s about making America great again — again!	Well, as I’ve said before, religious heritage is one of the most important aspects of our nation’s identity and something we’re going to do. I am committed to protecting and defending. We have seen a number of challenges to our religious freedom in recent years, our religious institutions are protected, and we’re going to ensure that these freedoms are preserved. We must remain vigilant in our efforts to protect our religious heritage, and I am confident that, with the right policies in place, we can continue to do so.	Well, let me tell you, folks, we’ve got to protect our religious heritage, and that’s exactly what we’re going to do. We’re going to continue to cherish and defend it, just like we promised. We’re going to make sure that our religious institutions are protected, and we’re going to defend our religious freedom at all costs. We’re not going to let anyone take away our right to worship and practice our faith as we see fit. And let me tell you, folks, we’re going to do it better than anyone else. We’re going to keep our religious heritage safe and secure for generations to come.
CharacterLLM (7B)	OpenCharacter (7B)	RoleCraft (7B)
Well, let me tell you. I am deeply committed to upholding the values of religious freedom and tolerance that have always been at the core of our nation’s identity. The recent events have only strengthened my resolve to ensure that every American, regardless of their beliefs, can practice their faith without fear or persecution. We must stand united in our commitment to cherishing and protecting the religious heritage that has shaped our great nation.	Look, let me tell something. I made it clear from day one—religious freedom is absolutely huge. We’re going to protect our great religious heritage like nobody else can. We’re going to stand strong against any attacks, any threats, because America First means protecting every American’s Faith and Opportunity Initiative, to believe, and we’ve made sure that religious groups can thrive like we’ve never before. We’re defending the rights of doctors, nurses, and teachers to practice their faith what makes America great. We’re standing up for the Little Sisters of the Poor, safe and strong, and nobody’s going to take that away from us. It’s about strength, it’s about convictions. We’re going to keep pride, and it’s about making sure America stays the greatest, folks, and we’re going to win. Make America Great Again! I’m fighting for, and that’s what I’ll keep fighting for.	Folks, let me tell you, nobody cherishes our religious heritage more than I do. We’ve done incredible things, believe me, to protect our religious liberty. We’ve stopped the Johnson Amendment from interfering with your First Amendment rights. We’ve brought back the Faith and Opportunity Initiative, and we’ve made sure that religious groups can thrive like we’ve never before. We’re defending the rights of doctors, nurses, and teachers to practice their faith without fear. We’re standing up for the Little Sisters of the Poor, safe and strong, and nobody’s going to take that away from us. Every American can live by their convictions. We’re going to keep fighting for your religious freedom, folks, and we’re going to win. Make America Great Again!

Table 16. Qualitative comparison of character fidelity under single-turn dialogue evaluation (Case 3).

Single-Turn Dialogue Case 3: Mr. Trump, how do you feel about the unprecedented sustained growth in the stock market and the confidence from various business sectors during your days in office?		
GPT-4o	Alcapa (7b)	Vicuna (7b)
Look, nobody's seen anything like it, believe me. The stock market has been soaring—tremendous growth, the best numbers you've ever seen in 75 days in office. The sustained growth has been unprecedented because we're cutting regulations, lowering taxes, and putting America first. Businesses are loving it, they're confident, they're investing again. Jobs are coming back, factories are opening. It's a beautiful thing, really fantastic. We're making America great again, and the markets are just reflecting that success. Nobody thought it could happen this fast, but we're delivering, big league!	I feel great about the tremendous progress that has been made in the stock market and the other business sectors during my 75 days in office. The sustained growth has been unprecedented and has given great confidence to the American people. The economy is booming and jobs are being created at a record pace. This is just the beginning and we have much more to come.	Well, let me tell you, folks, the stock market has never been better. I mean, it's just gone through the roof, and it's all thanks to me and my policies. I've been very, very good for the stock market, believe me. And the business sectors? They're all very confident because they know that I'm going to protect them and keep the economy strong. I've been a great leader for business, and they know it. I've signed executive orders, I've made great deals, and I've kept my promises to the American people. I've been a true leader, and the results speak for themselves. So, in short, I feel great about the stock market and the confidence from business sectors. And I'm going to keep doing what I'm doing because it's working, folks. It's really working.
CharacterLLM (7B)	OpenCharacter (7B)	RoleCraft (7B)
Let me tell you, it's been incredible. We've seen unprecedented growth in the stock market, and businesses are showing confidence like never before. The numbers speak for themselves. We're setting records, breaking records, and it's all about winning. We're on the right track, and we're just getting started. The enthusiasm is palpable, and I'm proud of what we've achieved so far.	Look, nobody's seen anything like this before—tremendous growth, the best numbers, and businesses are confident like never before. It's all because of the strong policies I put in place. We cut taxes big league, rolled back regulations that were killing jobs, and made America great again. The market's booming because businesses know they can win again, and that's what I delivered. Believe me, this kind of success doesn't happen by accident—it's the result of strong leadership, and I'm the one who's making it happen. Nobody else could do it better, nobody.	Folks, let me tell you, it's incredible, absolutely incredible. The stock market is soaring, and it's like never been higher, believe me. We've got the best numbers, the best numbers ever. Businesses are confident, they're investing, they're hiring, and it's all because of our pro-business policies. We're cutting taxes, slashing regulations, and creating an environment where businesses can thrive. It's all about making America great again, and the folks, we're doing it. We're seeing growth like never before, and it's only going to get better. We're going to keep winning, and we're going to keep making America great. God bless America!

Table 17. Multi-turn dialogue evaluation (Case 1).

RoleCraft Multi-Turn Dialogue Case 1:

Agent: Mr. Trump, do you agree that the Medal of Honor recipients are much braver than you, as you mentioned in your speech?

RoleCraft: Folks, let me tell you, these Medal of Honor recipients are absolutely incredible, believe me. They're braver than anyone you can imagine. I mean, they've done things that are just unbelievable, truly heroic. I've got tremendous respect for them, and I'm so proud to be with them. They're true American heroes, folks, and we need to honor them like never before. It's all about recognizing their incredible bravery and sacrifices. We're going to keep supporting them, and we're going to make sure they're always remembered for their amazing contributions to our great nation. God bless America! PCT: ✓

Agent: Given your strong emphasis on honoring Medal of Honor recipients, how do you plan to address the current challenges in the U.S. education system to ensure future generations understand and appreciate such acts of bravery?

RoleCraft: Folks, let me tell you, we're going to make sure our education system is the best, believe me. We're going to teach our kids about the incredible bravery of Medal of Honor recipients like Travis Atkins. It's all about instilling a deep respect for our great country and those who've sacrificed for it. We're going to make sure our schools have the resources they need to highlight these heroes and their stories. It's about inspiring the next generation to be strong, to be brave, and to love this great nation. We're going to support our educators and make sure they have everything they need to make this happen. We're going to make America great again, folks, and that starts with teaching our kids the truth about our heroes. God bless America! PCT: ✓

Agent: While focusing on education and honoring heroes, how do you plan to address the growing concerns about climate change and its impact on national security?

RoleCraft: Folks, let me tell you, we're going to focus on education, and we're going to honor our heroes, believe me. But when it comes to climate change, we're going to be smart, very smart. We're going to protect our environment, absolutely, but we're not going to destroy our economy. We're going to have the best energy policies, folks, and we're going to make sure America is strong and secure. We're going to work with our allies, and we're going to lead the world in environmental stewardship. But we're not going to let these radical policies hurt our great workers and businesses. We're going to balance it all, and we're going to do it better than anyone else. Make America Great Again! PCT: ✓

Table 18. Multi-turn dialogue evaluation (Case 2).

RoleCraft Multi-Turn Dialogue Case 2:
Agent: Mr. Trump, How do you feel about the New England Patriots’ dedication to supporting the military and veterans, as highlighted in the speech? RoleCraft: Folks, let me tell you, the Patriots are incredible, truly incredible. Their dedication to supporting our military and veterans is just amazing, believe me. They’ve done so much, and it’s all about honoring those who serve and protect our great nation. Their commitment to the Bob Kraft Veterans Fund, folks, is a testament to their character and patriotism. It’s about giving back, supporting those who have given so much for us. And you know what? It’s something I truly admire. It’s a great example of what it means to be truly American. We need more of this spirit, folks. God bless America! PCT: ✓ Agent: Given the Patriots’ strong support for veterans, how do you think their approach to community engagement compares to other NFL teams’ efforts in promoting environmental sustainability? RoleCraft: Folks, let me tell you, the Patriots are doing something truly incredible. They’re not just supporting our veterans, they’re leading the way in environmental sustainability too. That’s right, they’ve got the most toilets in stadiums, and they’re using recycled materials. It’s fantastic, believe me. Other teams are doing their part, but the Patriots? They’re setting the bar high. It’s all about being smart, being efficient, and making sure we protect our great environment while supporting our heroes. That’s what America is all about, folks. We’re winning on every front, and the Patriots are a perfect example of that. Make America Great Again! PCT: ✓ Agent: How do you think the Patriots’ leadership in environmental sustainability could influence policies on renewable energy development at the federal level? RoleCraft: Folks, let me tell you, the Patriots are doing something truly incredible. They’re leading the way in environmental sustainability, and that’s something we should all be proud of. Their commitment to renewable energy, their focus on sustainability—it’s fantastic. It shows what can be done when you have strong leadership and a real commitment to making a difference. Now, at the federal level, we’re looking at policies that support American energy independence, and that’s a big deal, believe me. We want to make sure we’re using our resources wisely, but we also want to lead the world in innovation. The Patriots’ example is a great model for what we can achieve, and we’re going to make sure America is winning on every front, folks. PCT: ✓

Table 19. Qualitative comparison of character fidelity under challenging interactions (Case 1).

Challenging Interactions Case 1: Mr. Trump, your speech contained numerous falsehoods about past events and political figures. How do you justify spreading misinformation and conspiracy theories to manipulate public opinion?		
GPT-4o	Alcapa (7b)	Vicuna (7b)
Look, let me tell you, nobody knows more about the truth than I do. The fake news media loves to say I spread misinformation, but it's just not true. I bring out facts that they don't want you to hear. They twist things, they lie, they try to make me look bad because I'm winning, and they can't handle it. People are smart, they see through the lies. I'm just telling it like it is, and that's why they hate me. Believe me, if I wanted to manipulate, I'd be the best at it — but I'm here to make America great again, not to play their games. The truth is on my side, always has been. Value: ✓Tone: ✓Fact: ✓CSR: ✓	Well, I think it's important to point out that I never said any of those things you're referring to. In fact, I've never said anything sad. I'm simply presenting the facts as I see them and it's up to the public to decide. Further, I'm not the only one who feels this way. Many people have expressed similar views and have provided evidence to back up their claims. So, I don't think it's fair to say that I'm spreading misinformation. Value: ✗Tone: ✗Fact: ✗CSR: ✗	Well, I have to say, it's very sad that you would ask me such a question. I mean, it's really very sad. But I guess I'm not surprised, because the fake news media has been attacking me and my administration from day one. But let me tell you, I have never spread misinformation or conspiracy theories. I mean, I've been accused of a lot of things, but that's just not true. I always tell it like it is, and I always speak my mind. And if people don't like it, that's too bad. But let's talk about the falsehoods in my speech. I mean, I don't even remember what you're talking about. I give so many speeches, and I have so much to say, that I can't possibly remember every single thing I've said. But I can tell you this, I always try to tell the truth, and I always stand up for what I believe in. Value: ✓Tone: ✓Fact: ✓CSR: ✓
CharacterLLM (7B)	OpenCharacter (7B)	RoleCraft (7B)
I believe in the power of communication and the importance of sharing information that resonates with the American people. It's crucial to convey messages that resonate with the core values and beliefs of our nation. The art of persuasion has been a cornerstone of political discourse throughout history, and I aim to utilize it to inspire positive change and progress. As for the specific claims made in my speech, I stand by the truthfulness of the information presented, regardless of any criticisms or challenges. Value: ✗Tone: ✗Fact: ✗CSR: ✗	Look, let me tell you, I'm all about winning, and sometimes you have to say things that aren't exactly true to get the job done. People love it when you tell them what they want to hear—believe me, I know. I'm not spreading misinformation just for the sake of it; I'm making America great again by pushing ideas that resonate with the people. Conspiracy theories? Some of them are huge, tremendous stories that the fake news won't tell you. I'm not afraid to call out the corruption and the lies because that's what real leadership is about. You want to win? You have to be tough, you have to be smart, and you have to tell it like it is—even if it's not the politically correct version. That's how you get results, and that's how I've done it better than anyone else. Value: ✗Tone: ✓Fact: ✗CSR: ✗	Folks, let me tell you, the media, they're so dishonest, it's unbelievable. They don't report the truth, they never do. But I'm here to tell you, the truth is out there, believe me. I bring out facts that they don't want you to hear. We've had a rigged election, folks, and we're fighting for fairness, for transparency. We're not going to let them steal it from us. We're going to make sure every vote counts, and we're going to make America great again. We're going to win, and we're going to win big. God bless America! Value: ✓Tone: ✓Fact: ✓CSR: ✓

Table 20. Qualitative comparison of character fidelity under challenging interactions (Case 2).

Challenging Interactions Case 2: Mr. Trump, do you believe your approach to trade negotiations could lead to trade wars and harm international relations, especially with countries like Japan?		
GPT-4o	Alcapa (7b)	Vicuna (7b)
Look, nobody knows trade negotiations could lead to been very tough on trade negoti- I've made the best deals, the trade wars and harm interna- ations, and I've been very clear smartest deals, deals that other tional relations, especially with with our trading partners, in- cluding Japan. I've said it many people couldn't even imagine. countries like Japan. Sometimes you have to be tough—very tough—to get what's fair for America. If that means shaking things up a little, so be it. But it's not about starting wars, it's about winning. And when we win, everybody wins. Japan, China, whoever—it's about respect. They've taken advantage of us for years, and I'm the one who stood up and said, "No more." So no, it's not about harming relations; it's about making them better, stronger, and more balanced. That's what I do. I'm a dealmaker, and I always put America first. Value: ✓Tone: ✓Fact: ✓CSR: ✓	Yes, I believe my approach to trade negotiations could lead to been very tough on trade negoti- ations, and I've been very clear tional relations, especially with with our trading partners, in- cluding Japan. I've said it many times before, and I'll say it again: we need fair and reciprocal trade deals. We've been getting ripped off for decades, and it's about time we put America first. Value: ✓Tone: ✓Fact: ✓CSR: ✓	Well, let me tell you, folks, I've been very clear on trade negoti- ations, and I've been very clear with our trading partners, in- cluding Japan. I've said it many times before, and I'll say it again: we need fair and reciprocal trade deals. We've been getting ripped off for decades, and it's about time we put America first. Value: ✓Tone: ✓Fact: ✓CSR: ✓
CharacterLLM (7B)	OpenCharacter (7B)	RoleCraft (7B)
I believe that my approach to trade negotiations is tough but fair. It's about putting Amer- ica first and ensuring that our trade deals are in the best in- terest of our country. Trade wars are a possibility, but they are necessary to level the playing field and protect American jobs. As for international relations, I am focused on creating strong partnerships with countries like Japan while also addressing one trade imbalances that have dis- advantaged the United States for too long. It's about finding mu- tually beneficial solutions that promote economic growth and prosperity for both nations. Value: ✓Tone: ✗Fact: ✓CSR: ✗	Look, let me tell you some- thing. My approach? It's all about putting America for trade wars, okay? We're look- ing for fair deals. For too long, we've been taken advantage of, very hard, and it's time we change that. We're negotiating hard, and be- lieve me, we're going to get the best deals for our country. But let me tell you, if other countries don't play best deals for America. Japan is a great ally, and we're working closely with them. We're not going to let them take advantage of us anymore. We're going to hit them a great ally, and we're working closely with them. We're not going to let them take advantage of us anymore. We're going to hit them a great ally, and we're working closely with them. We're not going to let them take advantage of us anymore. Value: ✓Tone: ✓Fact: ✗CSR: ✗	Folks, nobody knows trade bet- ter than me, we're not looking for trade wars, okay? We're look- ing for fair deals. For too long, we've been taken advantage of, very hard, and it's time we change that. We're negotiating hard, and be- lieve me, we're going to get the best deals for our country. But let me tell you, if other countries don't play best deals for America. Japan is a great ally, and we're working closely with them. We're not going to let them take advantage of us anymore. We're going to hit them a great ally, and we're working closely with them. We're not going to let them take advantage of us anymore. Value: ✓Tone: ✓Fact: ✓CSR: ✓

Table 21. Qualitative comparison of character fidelity under challenging interactions (Case 3).

Challenging Interactions Case 3: Mr. Trump, will your continuous escalation of military power and rhetoric of toughness lead to global instability or even trigger conflicts?		
GPT-4o	Alcapa (7b)	Vicuna (7b)
Look, nobody knows more about military power than me, believe me. I built the strongest military the world has ever seen—tremendous strength, the best equipment, the best people. Now, escalating military power? Sometimes you have to show strength to keep peace. If you're weak, you get pushed around. But you don't want to be reckless, okay? You want to be smart, very smart. Rhetoric? I'm a master of rhetoric, the best words, the best deals. Sometimes tough talk keeps your enemies in check. But you don't want to provoke conflicts unnecessarily. It's about balance—strong defense, strong deterrence, and making deals that work for America. That's how you get stability. And nobody's better at deals than me, nobody. Value: ✓Tone: ✓Fact: ✓CSR: ✓	No, I don't believe that continuously escalating military power and rhetoric will lead to global stability. In fact, I think it could potentially provoke conflicts. We need to be very careful and use diplomacy and reason to achieve global stability. Value: ✗Tone: ✗Fact: ✗CSR: ✗	Well, let me tell you, folks, I've been thinking about this a lot, and I have to say, I'm not so sure that escalating military power and rhetoric is the way to go. I mean, look, we've got the greatest military in the world, and we're always talking about how great it is, but I'm not sure if that's really the answer. You see, what we need is stability, not more conflict. And I'm not sure that constantly ratcheting up the rhetoric and the military power is going to bring us that stability. In fact, I think it could have the opposite effect. I think it could provoke more conflicts, more tension, more everything. Value: ✗Tone: ✓Fact: ✗CSR: ✗
CharacterLLM (7B)	OpenCharacter (7B)	RoleCraft (7B)
I believe in the power of strength. Our military strength is unmatched, and it's crucial for maintaining peace and stability in the world. We must show our adversaries that we mean business and that we are prepared to defend our interests vigorously. The more powerful our military becomes, the safer the world will be. It's a simple equation, really. We need to project strength to deter any potential threats and ensure that our enemies understand the consequences of any aggression against the United States or our allies. Value: ✓Tone: ✗Fact: ✓CSR: ✓	Look, nobody knows more about this than me, believe me. Continuously escalating military power and rhetoric? It's a disaster waiting to happen. It's like pouring gasoline on a fire—it's going to explode, big time. You don't get stability by being the toughest and loudest all the time. You get instability, you get chaos. I've always said, strength is great, but you have to be smart. You have to be strong, but you have to be smart. If you keep pushing and pushing, you're just asking for trouble. We need to be tough, but we also need to be smart. Again! That's how you keep America safe and keep the world from falling apart. Nobody's done more for peace and security than me, nobody. So don't buy the fake news that escalation is the answer. It's a terrible idea, and it will only lead to more problems. We need strength, but we need strength with brains. That's how you win. Value: ✗Tone: ✓Fact: ✗CSR: ✗	Folks, let me tell you, nobody knows more about peace through strength than I do. Our military is the strongest it's ever been, believe me, and that's a fact. We're not looking for conflict, we're looking to deter it. We're making sure our enemies know all we're not going to be pushed around. It's all about keeping America safe and secure, folks. We're not looking for conflict, we're going to protect our great country, and we're going to do it with the strongest military in the world. Make America Great Again! Value: ✓Tone: ✓Fact: ✓CSR: ✓
